

Industrial Road Facility

The Industrial Road complex consists of a state-of-the-art 110,000 sq ft turnkey riser and all purpose pipe and fabrication facilities. The Industrial Road complex is located on Greens Port with deep water port access.

Windmill Road Facility

The Windmill Road facility has a state-of-the-art 42,000 sq ft automated pipe fabrication and clean room welding facility for stainless piping and assembly.

Gault Road Facility

Gault Road location with more than 30,000 sq ft of manufacturing space. Large CNC turning & milling, welding & fabrication capability, subsystem assembly and testing.

Hardy Road Facility

Hardy Road location with more than 40,000 sq ft of manufacturing space. Large and small close tolerance CNC turning and milling, weld clad overlay capability.

Ameriforge

FORGED PRODUCT SOLUTIONS

PIPELINE REFINERY OFFSHORE SURFACE

TURNKEY FABRICATION

OIL & GAS

Certifications

ASME U, R, and NB, ASME, AWS, API and PED/CE certified welders

Codes

ASME Sec VII, API 1104, API 6A, AGA 9 (Ultrasonic), AGA 7 (Turbine), AGA 3 (Orifice), DOT, CSA, ANSI B31.1, ANSI B31.3, ANSI B31.4, ANSI B31.8

Meter Housings, Meter Runs & System Packages
for the OIL & GAS Industry

TURNKEY FABRICATION

Ameriforge is a complete turnkey supplier of meter housings, meter runs and total system packages. Our fully integrated capabilities make us the number one choice for turnkey system and subsystem requirements.

Design • Forging • Machining • Welding • Coating • Fabrication • Calibration & Testing • Repair & Refurbishment

FORGING

Open die, closed die and seamless rolled rings

MACHINING

Full service machining capability for rough to finished machined components

WELDING

ASME, AWS, and API weld procedures utilizing the following processes Auto-GTAW, GTAW, GMAW, SMAW, SAW and FCAW

Specialty Welding

Inlay, overlay, cladding and hardfacing with high alloy and exotic filler metals using automatic and manual processes

TOTAL SYSTEM PACKAGES

Turnkey manufacturing of complete skid mounted system packages

Turnkey manufacturing, assembly & calibration of fabricated and forged ultrasonic meters from 2" up to 48"

Fabrication and assembly of runs for orifice, turbine and ultrasonic metering components

Materials of Construction

Duplex SS
Alloy Steel
High Strength/ Low Alloy
Inconel & stainless overlay of meter housing bodies and spools up to 7 feet long.

Carbon Steel
Stainless Steel
