## Tubular Products & Fabrication for the OIL & GAS Industry

# TURNKEY FABRICATION

Ameriforge is an industry leader in tubular product and heavy structural fabrication. Our fully integrated capabilities makes us the number one choice for turnkey systems and subsystem requirements.

Forge • Machine • Inlay • Weld • Stress Relieve • Heat Treating • NDE • Hydrostatic Test • Assembly • Coat

## FORGING

Open die, closed die and seamless rolled rings

## MACHINING

Full service machining capability for rough to finished machined components

## WELDING

ASME, AWS, and API weld procedures utilizing the following processes Auto-GTAW, GTAW, GMAW, SMAW, SAW and FCAW

### Specialty Welding

Inlay, overlay, cladding and hardfacing with high alloy and exotic filler metals using automatic and manual processes

## ASSEMBLY

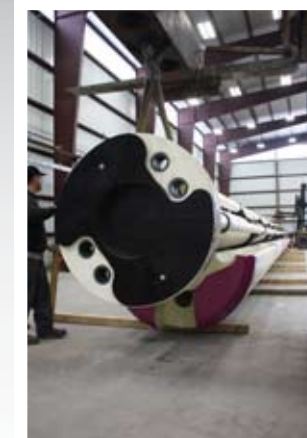

Full service assembled product capability for riser, skirts and sub-assemblies

### Structural Fabrication

Full range of tooling required to handle all types of fabricated products. Heavy fabrication is our specialty

### Coating

State-of-the-art automated coating system
