

Industrial Road Facility

The 42 acre Industrial Road complex consists of a 110,000 sq ft state-of-the-art fabrication facility along with a 300,000 sq ft closed die forging and CNC machining facility. Industrial Road is located on Greens Port with deep water port access.

DeSoto Facility

The DeSoto facility houses three open die presses, including the company's largest open die press, a 3,500 ton. The 35 acre facility has a 27,000 sq ft CNC machine shop and a 20,000 sq ft forge and heat treat facility, forgings up to 25,000 pounds.

Gault Road Facility

Gault Road location with more than 30,000 sq ft of manufacturing space. Large CNC turning & milling, welding & fabrication capability, subsystem assembly and testing.

Hardy Road Facility

Hardy Road location with more than 40,000 sq ft of manufacturing space. Large and small close tolerance CNC turning and milling, weld clad overlay capability.

FORGING

Open die, closed die and seamless rolled rings

MACHINING

Full service machining capability for rough to finished machined components

SPECIALITY WELDING

Inlay, overlay, cladding, and hardfacing with high alloy and exotic filler metals using automatic and manual processes

INSPECTION

Complete testing services including dimensional verification, CMM and A2LA accredited metallurgical lab

PRODUCT SOLUTIONS

Full service assembled product capability including welding, induction hardening, coating and testing
